

Greenhouse Gas Emissions Statement

The table below shows Bird & Bird's firmwide emissions for FY23, calculated according to the GHG Protocol Standard. The scope 3 categories relevant to Bird & Bird are shown.

- Scope 1 includes fuel combustion (natural gas and diesel), fugitive emissions (refrigerants), and emissions associated with long-term lease company vehicles.
- Scope 2 includes consumption of purchased electricity, heating and cooling.
- Scope 3 includes the purchase of products and services, fuel and energy-related activities, upstream transportation and distribution services (postage and couriers), waste generated in operations, business travel, employee commuting, sub-let office space, and investments. Our business travel emissions include radiative forcing.

Bird & Bird has committed to set near- and long-term company-wide emission reductions in line with science-based net-zero with the Science Based Targets initiative (SBTi). FY23 is our baseline year, from which we will track progress towards these targets.
